Sandi Hartley of the Dog Park Coalition made a presentation regarding and questioning the Cities position on the establishment of a Dog Park. Mark T. explained the history of the funding issues and dispelled some of the rumors circulating regarding the eventual location of the Dog Park area. The folks from the coalition opposed locating the Park in Molalla State Park.

The presentation from "Canby Kids" was tabled as they were not present at this meeting.

Splash Pad discussion...It was reported that the RFP at this time had not been released and was awaiting the return of the City Manager for final review. It was suggested that the Oregon City's River Crest splash pad was a good model to look at when deciding on a design. Brief discussion ensued regarding how the water will be used when the splash pad is complete. Will it be recycled or go to waste water? No decision was made.

Barry J. gave a brief update on the Ackerman Project. April 11th meeting was canceled and rescheduled for April 25th. Barry has asked for a cost estimate for Option A. Some discussion followed.

8:30 pm meeting adjourned...
