ZION MEMORIAL PARK CEMETERY AND MAUSOLEUM

LOCATION AND HISTORY

Located on South Township Road just before the Sequoia Parkway crossroad is Zion Memorial Park Cemetery and Mausoleum. The property covers about 20 acres, 11 of which are developed. The old section is mostly filled and now there are only infrequent burials in remaining family plots. The new section is currently being used and has been added to over the years with growth to the north and east. New mausoleum buildings were added in 1989 and 2002.

The cemetery is over one hundred years old, organized by the Zion Cemetery Association in January of 1897. The cemetery was owned by the Canby Evangelical United Brethren Church until it became too labor-intensive to maintain, and was handed over to the City in 1937.
