City Invites Community to Long-Range Planning Open House

Open House Will Be Held Tuesday, January 24th at 6:00p

The City of Canby is hosting its second Open House to discuss future long-range planning efforts in Canby on Tuesday, January 24th at 6:00p. The Open House will be held at City of Canby Council Chambers, 222 NE 2nd Avenue.

The City has been working on Housing and Economic Opportunity analyses over the course of the last year. Residents, business owners, and community organizations are invited to learn more about the future growth in Canby.

The City is working with two consultants, FCS Group and 3J Consulting, to complete the plans. Both the housing and economic assessment analysis work has been grant funded by the Oregon Department of Land Conservation and Development (DLCD) and they have provided insight and expertise to the planning efforts to ensure the plans adhere to local and state requirements.

The Housing and Economic Opportunity analyses will inform the City's Comprehensive Plan and Transportation Systems Plan updates, which will begin later this winter.

Should you have any questions, please contact the Canby Planning Department at 503.266.7001.
