Open House for Future Planning Efforts on Housing and Economic Opportunities

Residents and Businesses are encourage to participate in planning for the future.

The Canby community is invited to the Economic Opportunity Analysis and Housing Assessment Open House on Thursday, July 14th, 2022.

The Open House will begin at 6:30p and be held on the main floor of the Canby Civic Center, located at 222 NE 2nd Avenue. The Open House will provide an overview of City's Housing Production Strategy and Economic Opportunity Analysis. Light refreshments will be provided.

The meeting will feature residential and commercial buildable lands inventory, current and projected population and demographics, and housing costs related to residential incomes. The community can expect a presentation of draft findings – including information on the amount of buildable lands currently available in the city – and a community input session.

In late 2021, the City of Canby was awarded \$100,000 from the Department of Land Conservation and Development to complete work on updating the City's Housing Production Strategy and additional \$50,000 for work on an Economic Opportunity Analysis. Both of the future planning efforts will also be informed by stakeholder input and advisory groups with local community members.

The City chose 3J and FCS Group for the respective projects; however, the City of Canby staff and consultants have been working in partnership to ensure a clear and comprehensive view is presented. The Housing Production Strategy and Economic Opportunity Analysis will inform the Comprehensive Plan Update that is planned to begin before the end of 2022.

For more information, please contact the City of Canby's Planning Department at 503.266.7001.
