## **CRITERIA FOR EXPANSION OF NONCONFORMING STRUCTURE OR CHANGE OF NONCONFORMING USE**

In judging whether or not such applications shall be approved or denied, the City shall weigh the proposal's positive and negative features and the public convenience or necessity to be served against any adverse condition that would result from authorizing the particular development at the location proposed and, to approve such expansion or change shall find that the following criteria are either met, can be met by observance of conditions, or are not applicable:

- A. The proposal will be consistent with the policies of the Comprehensive Plan and the requirements of the Land Development and Planning Ordinance, other than those specific zoning standards to which the use or structure is nonconforming.
- B. The characteristics of the site are suitable for the proposed use considering size, shape, design, location, topography, existence of improvements and natural features.
- C. All required public facilities and services exist to adequately meet the needs of the proposed development.
- D. The proposed use will not alter the character of the surrounding area in a manner which substantially limits, or precludes the use of surrounding properties for the uses listed as permitted in the zone.
- E. In considering whether to approve a change in the use the Commission shall compare the following characteristics of the historical use of the property with that proposed by the applicant in order to assure that the change will not constitute an expansion or intensification of the nonconforming use:

  - 2. Noise;
  - 3. Days and hours of operation;
  - 4. Physical appearance;
