

Library Advisory Board
Chair Report
August 2023

Since last month's meeting, I have been preparing to take a trip for a family wedding, being out of town for the family wedding and trying to get caught up after the family wedding – as well as having a wonderful time with family. However, leaving a large vegetable garden in the middle of summer results in a lot of extra work.

This week I will be meeting with Krista and Jennifer to review the LAB handbook and to answer any questions about it or the New Board Member Orientation. Linda Warwick also has some suggestions for the New Board Member Orientation and I will be working with her on those.

I have asked Amber to discuss all the various ways the Library reaches out to current and potential patrons. Even if you don't use Twitter (or X) or Instagram or Facebook, it is important to understand how the Library reaches out.

Just a reminder that there is no meeting in September as both Linda and I are out of town.
